

Mountain Dew

Ya' know, there's something about these hot summer days that call for an ice cold Mountain Dew. That cool, fresh, lemony taste ... there's just nothing quite like it. Working out here in the hot sun all day can really get to you after a while. That's why the refreshing feeling that I get from a Mountain Dew is worth more to me than almost anything at all. Take it from me ... Mountain Dew is the cool refresher you'll ask for time and time again. MOUNTAIN DEW ... the soft drink that stands by itself.
